

Abdoul Hamid COULIBALY

Backend Engineer

Data Systems & Cloud

-  Rennes, France
-  pro@dimahc.dev
-  dimahc.dev
-  dimahc
-  LinkedIn

Software engineer working at the intersection of data, cloud infrastructure, and distributed systems. After several years building large-scale data processing architectures (IoT, telecom, renewable energy), I now focus on Infrastructure as Code components around Terraform, with a growing contribution to open source projects.

P

Professional Experience

Orange Business
Senior Go / DevOps Engineer

Jan 2026 – Present

- > Terraform Provider
- > VMware Cloud APIs
- > Go SDK
